 <https://www.linkedin.com/in/david-baker-b2208a157/>  
 <https://github.com/DavidDBaker>

Software developer who has taken part in Georgia Institute of Technology Full Stack Web Development. With a passion for learning and innovation, I enjoy problem solving while being challenged outside my comfort set. Creating fluent APIs, dynamic web design, and learning to fabricate the vast ocean of hardware like raspberry pi, arduino, and RFID's.

## Skills

HTML  
CSS  
JavaScript  
jQuery  
Node.Js  
Express.js

## Employment

**ScreenFixing** Decatur, GA  
**Hardware Technician** Aug. 2022 to Current  
Job includes greeting customers, identifying hardware issues, testing, assessing functionality, replacing parts, data recovery, and maintaining repair records.

**Leapfrog Services** Atlanta, GA  
**IT Analyst** Mar. 2022 to Current  
As an IT Analyst, my job includes troubleshooting client issues via RDP. Issues can be a wide range from basic active directory password reset, to more advanced troubleshooting issues such as reconfigurations of servers or databases.

**TaskUs** Dallas, Texas  
**Teammate** Mar. 2021 to Current  
Worked with the Riot Games campaign with their security operation center using tools such as Burp Suite along with other tools to perform security testing of web applications.

**Specialized** Atlanta, GA  
**Mechanic** July 2020 to Feb. 2021  
Job included rebuilding and programming their electric motors for their e-bikes, rebuilding their smart suspensions and programing them, demoing their bikes, and answering questions.
